EDUCATION

Ambalika Institute of Management and Technology

2020 - 2024

Bachelor of Technology in Computer Science and Engineering

Lucknow Public School

2019 - 2020

Intermediate School (ISC)

PROJECTS

[iNotebook](#) | *React.js, Bootstrap, Nodejs, Expressjs, MongoDB*

January - February 2023

iNotebook is an online web platform that allows users to create, edit, update, and delete their notes/information securely and privately.

- Developed the frontend using Functional Based Components in **React.js** and **Bootstrap**
- Created the backend **API** using **Express.js** on top of **Node.js** and handling errors using middleware.
- Utilized **MongoDB Compass** to implement a database, enabling users to perform **CRUD** operations on their notes.

[CodeCampus](#) | *React.js, Bootstrap, Nodejs, Expressjs, Javascript, Firebase*

March - April 2023

CodeCampus is an online learning website dedicated to helping students learn coding and providing curated resources.

- Developed the frontend using Functional Based Components in **React.js** and **Bootstrap**
- Developed a persistent dark mode feature using **React Hooks**.
- Integrated **Firebase** for login functionality and deployment.

[NewsMonkey](#) | *React.js, Bootstrap, Nodejs, Javascript*

February - March 2023

NewsMonkey is a news app which can be used to grab quick daily news like weather, politics and sports news.

- Developed the frontend using Functional Based Components in **React.js** and **Bootstrap**
- Integrated the **News API** to fetch real-time news updates.

ACHIEVEMENTS

- **Winner** of CodeWar, a coding competition conducted by my college in its Technical Fest, awarded a **gold medal** and **cash prize**.
- Secured **3rd position** out of **200+ participants** in TechBuzz, a contest based on **Core Java**, conducted by my college in its Technical Fest.
- Achieved the **Leetcode annual badge**, an honor earned by only **0.2%** of Leetcoders, for solving over 300 problems in 2022
- Ranked **4441** out of 1 lakh+ participants in the Coding Competition of **TCS CODEVITA 2022** season 10 round-1.
- Attained a **3-star** rating with a highest rating of **1748** at CodeChef.

WORK EXPERIENCE

CODECHEF | Doubt Solver

April 2022 - June 2022

- * Assisted users in solving doubts related to beginner-level coding problems (rated 0 - 1000) to help them make successful submissions.
- * Provided guidance and answered general queries regarding CodeChef, Competitive Programming, and learning journeys.

TECHNICAL SKILLS

Languages: Java, C, HTML, CSS, JavaScript, SQL

Technical Courses: Data Structures and Algorithms

Technologies/Frameworks: Bootstrap, Node.js, Express.js, React.js, GitHub
